

BASMATI

Evoking organic materials such as parchment and other precious products used during the art deco period to embellish luxurious residences. Basmati has a very special light reflection thanks to its smooth and silky surface. The front later recall the rice shiny and ivory surface by which the name was inspired. Basmati is a great example of how simplicity can match with sophistication. An understated luxury that can easily fit in every interior setting where there is a special attention on decorations details.
