

CREPE HANDMADE

Unmistakably inspired by nature, this product is the result of impeccable, meticulous workmanship by Italian master craftsmen. The cotton fabric is woven and frayed by hand then applied and coloured with natural pigments by hand in several stages. This creates dunes which are then highlighted with gold leaf, giving rise to an abstract effect that can be interpreted in many different ways, such as the cracks and crevices which can be seen the world over both in natural elements and myriad manmade inventions. This creates a simple yet sophisticated wallcovering with an imperfect handmade style that makes it exclusive and absolutely unique.
