SOPHISTICATED TEXTILE WALLCOVERINGS

## RHOMBUS

Our Rhombus wallcovering has actually a chevron motif. This v shape pattern is one of the oldest symbol in the human history and is used in many fields. But what inspired us here is not only a old symbol in architecture but even more the multiple lines and shades of colors you will see watching a beautiful male peacock walking, moving the delicate feathers of its incredible tail. The elegance of

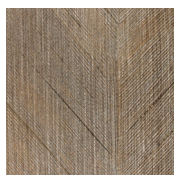

this beautiful bird has stimulated creativity in many fields especially painting. Our own version reflects our taste for simplicity. The design has been developed in a large scale with a visible stripe effect and without the typical eyespots. An accent color has been added to the main hues to give a eye-catching fine detail to the whole. It is printed on a fil posé base and is available in six colors.
